

## Faculty of Health and Behavioural Science

### Research Partnerships and Translation

### 2023 Application Guidelines

**Value: \$3000**

The Research Partnerships and Translation Award recognises outstanding models of high-impact collaborative research partnerships and the efforts of HaBS researchers who through industry engagement and research collaboration have achieved excellent outcomes and national and international research impact. Applications from individuals or teams will be considered. The award recipient(s) will have demonstrated delivery of either:

- Outstanding partner experiences and outcomes; or
- Excellence in translational research partnership activities; or
- Outstanding indigenous-led research and innovation partnerships that had a positive impact on indigenous peoples and communities.

**Eligibility:**

- Academic staff
- Holding at least a 0.5 FTE paid appointment within the Faculty of Health and Behavioural Sciences. The position must be a continuing position or for at least three years (may include a series of short appointments).

**Applicants should demonstrate:**

- Outstanding commitment to a research career
- Commitment to engaging with partners and research collaboration that has achieved excellent outcomes and national and international research impact

**A two-page CV for each applicant must be attached to the application as a single PDF.**
